I wish to make a statement to the public, of the case of my little son, only 3½ years old, who was so terribly afflicted with cancer, which was thought to be incurable when I placed him under the Doctor's care. The cancer was a very large one, involving almost the entire cheek. It appeared to be of a very malignant character, and rapid growth, and had been coming for about three years. The Doctor made an application which he continued but a short time, which did not cause but comparatively little pain to my son.
